About us

1423 China Kitchen is dedicated to promoting genuine traditional Chinese cuisine to people from all over the world. We provide a channel for exchanging cooking cultures of China and the UK.

Here we offer you quality Chinese food: we use typical ingredients and seasonings, which are imported directly from Szechuan in China.

With a professional team of chefs, we promise that each dish will be prepared & cooked by at least five professional chefs before delivery. We will start to prepare new dishes rather than pre-cooked ones as you make your order.

At 1423 China Kitchen you will find a very friendly and professional team offering the best modern Chinese food and a wonderful customer experience here in Windsor.

Chinese food in the UK is often thought of as “Chinese takeaway” style, but this is not authentic Chinese food at all. Chinese immigrants in earlier years came mainly from Hong Kong, bringing with them their own style of cooking and changing the flavour to cater for the English taste. This is the origin of European Chinese food. Taste the difference at 1423 China Kitchen!

Picture the size of China, 9.6 million square km, making it about 40 times larger than the UK and with 1.3 billion population around 20 times bigger than UK. Just imagine the variety of Chinese food throughout China. There are 8 major cuisines, one of the biggest of which is Szechuan Cuisine, which 1423 China Kitchen is famous for. 1423 also introduces the discerning guest to the cuisine of Northern China.

All our dishes are authentic, health-aware and make use of natural ingredients, known to the Chinese for centuries. Vegetarian and gluten free diets are carefully prepared. We even offer home visits, where our chefs will cook and prepare the very best fresh food in your own home!

We have been awarded 5 star rating for food hygiene by the Food Standards Agency from local council, and this is a score very rare for a Chinese restaurant. But we achieved it with confidence!

We are located in an exceptional, unique listed building and dates back to 1423. It is believed to be the second oldest building in Windsor. Windsor's first engine house was here, and there was a secret tunnel in the cellar with access to the Castle. The rumour goes that many kings used to meet their mistresses

4 Church Lane ★ Windsor ★ SL4 1PA
T 01753 866488 E reservations@1423.co.uk W www.1423.co.uk

here, maybe even King Henry 8th!

The building consists of three floors and easily caters for up to 90 people. Special anniversaries, family gatherings, company parties, or business meetings are all available here. Handmade furnishings in classical Chinese style were made by descendants of royal carpenters. We spent over ten months on refurbishment before opening, and kept every original structure from the 15th century such as one rare dragon beam across the ground floor ceiling. Fewer than ten of these exist in the country.

Let me welcome you to 1423 China Kitchen to enjoy a unique dining experience of the very best, authentic Chinese food in a fabulous 600 year old building!

I would like to share my ambition with you, or you could even call it my dream.

The reason for me to open this restaurant is to realize my dreams, one of them is I want to be a Chinese food ambassador in Windsor, to make this restaurant last at least 100 years. Another one is I am more than confident that one day I will have my own Michelin Starred Authentic Chinese restaurant in the UK.

Here took me two months to become No 1 Chinese restaurant in Windsor, and surpassed two over 40 years long established Chinese restaurants. Thanks to the team hard work to achieve this within such a short time and thanks for your support.

Many thanks for your time in reading this, and I wish you a very pleasant time here at my restaurant.

Best regards,

,
Owner Ying Wang
on behalf of 1423 China Kitchen team

Our Building History

The building, dating back to 1423 is believed to be the oldest, or second oldest building in Windsor, after the castle, which was built some 200 years before, and it situated in Church Lane, a quaint cobbled street.

1423 China Kitchen was originally known as The Engine House and used to be home to Windsor's first fire engine. A stone plaque relating to this can be seen above the adjoining alley way.

Beneath the building there are tunnels that used to lead to the castle - probably for use during wars, or perhaps for Henry VIII to sneak some of his many wives in!!

According to Royal Berkshire History website:

... a ghostly figure wearing a stiff white collar and a hat like a Quaker with long flowing hair and a beard haunts 1423 China Kitchen in Church Lane...

Footsteps can sometimes be heard upstairs!

There have been many unexplained occurrences in the building over the years, with some guests claiming to feel a ghostly presence!

Please feel free to have a look around at some of the original features, or ask your server for more details.
